**Holdfast**  
INDICA-DOMINANT HYBRID  
THC 15-20% CBD <2%

**Lift&co** The only brand I mess with The terpenes are there its **fresher than most** legal flower and the **effects are delightful!** Definitely recommend 5.0

Good tasting...interesting smoke. Nice sweet taste with **good looking buds**

...**This is the holy grail of cannabis.** At only 18.9% this hit harder and lasted long than the 21 - 23% stuff I usually get. The quality is that of a personally home grown and "babied from birth" plant. It's beautiful. 10 out of 5. **This is my new stuff**

**YouTube** **10 out of 10. Reef Does It Again**

Today we discuss...Holdfast a Reef high end Indica hybrid, and it is a very potent strain. The **aroma is orangey and pineapple**, and the taste combines with a nice earthy flavour... it has **nice dense buds which crumble nicely in your fingers and fluffs well.** This strain is a **very heady high**, more for a couch locked kinda day or night. Reef uses organic, living soil, and are developing good quality products, **certainly worth picking up** for the price you pay. "

**reddit** ...I bought an 1/8 around Christmas. **It was solid...**

...Picked up some of the Holdfast, packaged mid Nov, 20%. Left it on an Integra pack for a few days and last night decided to try it. In the Arizer Solo it vaped nicely. The pineapple or citrus cake through well. **Nice head based buzz initially then a solid body relaxation.** A price competitor for Broken Coast here in ON. **I was not disappointed**

...Opened the package **amazing, strong smell.** Buds small with a lot of tiny popcorn buds. Surprisingly not dry at all even with no hydration pack in container. **Lots of orange hairs and quite a bit of frost. Smoked smooth and light. Great flavours.** Two bowls out of a glass spoon and I'm feeling pretty damn fine. Intense body relax and a very happy head... **effects were nice and lasted a long time** which is nice for a change. ...I don't mind paying a bit more for quality product, especially locally grown. I'd rather pay a bit more for a decent product that is regulated than some garbage that's not.

...trying Reef Holdfast last night. **It's a great strain** that I don't see mentioned much... Holdfast has a great hybrid buzz for me. Initially racy **but smooths out to a great body buzz.**

**Twitter** ...White Shark: **Look A** - varying shades of green, dense trichs & red hairs; **Feel B** - Smushy & dense, smaller buds; **Smell A+** Intense forest with minty touch; **Taste A** - rich flavour & taste with easy touch; **Effects A** - Front & Center
